SLAB SPOON

Drop this bright, fluttering spoon into structure. The compact design reduces resistance on the fall. It races to the strike zone and bounces aggressively when jigged.

- The ultimate tool for targeting suspended fish
- Present near deep structure to wake up sluggish lunkers
- Jig vertically to create the look of a dying baitfish
- Needle-sharp treble takes care of business—don't be shy, hooksets are free!

FLUTTER MAGIC SPOON

The Castaic Flutter Magic Spoon is a

traditionally-shaped casting spoon that is irresistible for bass and other predatory fish. Cast it and let it flutter down to the desired depth, then reel or rip, pause and rip again.

This bait imitates a dying shad and other small bait fish. Most bass will slam this bait hard, but if your line goes slack, set the hook! It's small size targets a wide array of fish that larger spoons may struggle to attract. At just 2.25" (3" including the hook), the Flutter Magic is a small, bite-size lure for any predator.

The performance of the Flutter Magic Spoon shines when you let it slowly fall and jerk it, perfectly mimicking a dying shad. You'll get more time in the water, more fish in the boat, and less time spent untangling gear.

The Flutter Magic features a razor-sharp black nickel Kitana hook.

About the Flutter Magic Spoon

HEAVY METAL SPOON

Sometimes called The Heavy Metal flutter spoon, this lure weighs about 3 ounces and is 8" long. The Heavy Metal Spoon offers you an advanced hook system for greater bite-to-catch ratios than ordinary metal spoons. This bait is ideal for waters where big bass live, especially the TVA lakes of the southern United States.

The flashy, rolling wobble this lure puts in the water is precisely what you need to catch lazy giants looking for a substantial meal.

- Comes with razor-sharp Kitana Hooks.
- [Designed by Rookie of The Year and FLW Pro, Jason Lambert](#)
- Available in several colors
- Weighs 3 ounces and is 8 inches long
